SPECIFIC— Mario R. Giordano's Contacts With the Estonian G-2.

DOCUMENT MICROFILM SERVICE

1. As only seven members of the Second Section of the Estonian G-2 (among them Giordano and KALINUS) escaped from Estonia after World War II, and as CELLARIUS was Giordano's war-time chief, it is reasonable to assume that persons Giordano will suggest as being of possible interest to us will occasionally be already operationally involved with us in the project referred to in reference. However, Giordano cut off all his former contacts when he signed his contract with us and so far has renewed them only on specific instructions from us. Therefore we are fairly certain that we can prevent Giordano from making contacts considered inadvisable by Headquarters. We are not interested in debriefing Giordano on personalities well known to Headquarters unless Headquarters wishes us to do so for its own use.

2. However we are interested in expanding the HOMELY project and attempting to do so we plan to continue debriefing Giordano on contacts he believes might be of value to us. Without knowing the extent or nature of the complex referred to in reference, it is difficult to plan this expansion. It would be of considerable assistance if Headquarters would state whether or not this complex is limited to individuals concerned with HALLAMIA's W/T intercept system in Finland, in which the only persons well-known to Giordano are those listed in MGMA-8543, or whether the complex includes other elements of the Estonian G-2. Specifically we would like to know whether or not the ex-members of the Estonian G-2 listed in MUNI-7051 are involved in any current projects. We have as yet received no comments from either Headquarters or [] on the proposed contact with these individuals as requested in MGMA-08437 (941 CHGMAU).
